

NOT JUST A DREAM

if i could have one wish at present,
it would be for you to dream of me when you're absent
When across distant shores and distant seas.
When you're thinking of someone let it be, let it be me.
i press rewind to replay
so my memories don't fade.
we are not just a dream.

this is the eve of the last time we shared.
A month to the day all was laid bare.
From your heart, through my eyes, all of you i could see.
When you're remembering someone let it be, let it be me.
i press rewind to replay
so our memories don't fade.
We are not just a dream...

for i know in my heart and can feel in my bones.
through time and distance, wind and cold.
will not change our love to become old.
Beneath these starry skies our dreams unfold.
i press rewind to replay
so my memories don't fade.
we are not just a dream...

i press rewind to replay
so our memories don't fade.
as your nights turn into my days
and your sonnets remain a soliloquy.
we are not just a dream...
